HIGHWAYS			
18/12/2018	ECC5947020 12 18	Resurfacing of Ferry Road footpaths. Ferry Road footpath has recently been resurfaced in places by tarmac and others by black spray. The preparation for this work is unsatisfactory areas have not been sided back i.e. grass over the footpath just gone around it, not level, going up resident's wall etc. The areas which have been sprayed in black paint is crumbling away, causing pools of water to sit on the path (especially outside Riverside Primary School) which will be a safety concern when the weather is colder. Unsatisfactory work and not fit for purpose. Please can an inspector come and look at this work.	Thank you for your online submission dated 20 December 2018 regarding footway works in Ferry Road, Hullbridge. I regret to hear of any inconvenience experienced. I have liaised with our Maintenance Team; they have confirmed they have contacted the subcontractors who undertook the works in question; they will carry out a site visit in due course and the necessary action will be taken.
13.09.2018	2587753	Blocked drain of silt. With previous attempts of road sweeper flushing water through the blockage still remains and needs further investigation. First drain on left hand side in Thorpedene Avenue when entering in from Ferry Road end.	Reported to ECCH Ref 2587753. No action by ECCH intended at this point in time.
