### UPDATE

**25/00952/FUL – 54 Ferry Road, Hullbridge.** Proposed ground and first floor extensions to front, and single storey pitched roof extension to rear with roof lights.

**Hullbridge Parish Council – No objection**

**25/00786/FUL – Land East adjoining Hockley Park, Lower Road.** Change of use of agricultural land into a secure dog exercise field for public use with new access gate and boundary fencing. ***HPC Objects by reason of loss of agricultural land. Adverse effect on the residential amenity of neighbours on The Dome and Hockley Park sites by way of noise and disturbance created by dogs and vehicles.***

***Additionally, the proposed opening hours are far too long and would present an unacceptable nuisance to these same residents, many of whom are elderly, early in the morning and late into the evening. We recognise that the intent is to allow working people the ability to exercise their dogs early in the morning and late into the evening BUT this in itself would present a disturbance to residents, not least with the movement of vehicles "too and fro". If this application is granted by RDC we would recommend a condition that provides a later start to the day and an earlier finish. There is also lack of car parking capacity. Users would need to use the limited car parking at the Dome (including the Rose Garden Restaurant) and Hockley Park.***

**25/00838/FUL – 12 Waxwell Road, Hullbridge.** Convert loft to habitable rooms with hip and gable alteration, flat roofed rear dormer and roof lights to front. Construct rear conservatory. ***HPC Objects by way of Overdevelopment of the site including loss of garden/residential amenity space; Visual impact of the development, its adverse impact on the street-scene and on the character of the neighbourhood compared with existing properties in the vicinity. HPC also have great sympathy with neighbours comments regarding the loss of bungalows generally and thereby the potential for residents to "down-size".***

**25/00839/FUL – 14 Waxwell Road, Hullbridge.** Convert loft to habitable rooms with two flat roofed rear dormers, roof lights to front and hip to gable alteration, two storey side extension. ***HPC Objects by way of Overdevelopment of the site including loss of garden/residential amenity space; Visual impact of the development, its adverse impact on the street-scene and on the character of the neighbourhood compared with existing properties in the vicinity. **25/00527/FUL – Land between Donville and Torwood Kingsway, Hullbridge.** New build, sustainable, 3 bed self build dwelling. ***HPC Objects. Inappropriate development in the recognised Metropolitan "Green Belt". It does not meet any of the exceptions set out in the NPPF (Para 149).***  
***The adverse impact on protected and priority species on the site and the wider biodiversity, especially given the close proximity of this site to a number of habitats sites which are already subject to pressures from recreational disturbance.***

***The overdevelopment of the site, given the existing footprint.***

<https://planningdocs.rochford.gov.uk/Planning/planning-documents?SDescription=25/00676/FUL>

**HPC Object.**

This proposal is an unacceptable incursion into the Green Belt.

The proposed development would result in a materially larger building than the existing buildings to be replaced which would have a substantial impact on the openness of the Green Belt in comparison to the existing built form to be removed. There are no considerations of sufficient weight that would clearly outweigh the harm to the Green Belt and very special circumstances simply do not exist. The proposed development would therefore prove contrary to paragraph 154 g) to the National Planning Policy Framework (2025) and if allowed would cause an incremental loss of openness detrimental to the character of the Metropolitan Green Belt.

Bearing in mind all material considerations, the issues identified above are considered by HPC to be so fundamental to the proposal that HPC must object because of the harm that will be done to the Metropolitan Green Belt as a consequence of this development
